

# Advanced Searching 101: Practice

A few months ago, a friend told you about a book they highly recommended. It was a mystery by a very popular British author, with a very shocking ending. You can't remember the title or the author, but you remember that it was an older book (from the 1940s or 1950s) and involved a wealthy family in a house. The title of the novel may have come from a nursery rhyme.

Use your internet search skills to **find the author and title** of this book.

Each time you type something into the search bar, **write down your search on this worksheet.** You may need to modify your search multiple times before you find the correct answer; you can write on the back of this sheet if you run out of space. **Once you think you've found the answer, write it on your worksheet (but don't tell anyone else!!!)**
